ENR Recognizes Alpha Corporation as Top 100 PM/CM Firm

Alpha Corporation has been recognized again this year by Engineering News Record (ENR) as a Top 100 PM/CM firm among its peers in the United States. Specifically, Alpha is ranked #45 among Construction Management for-fee firms and #29 among Program Management firms. This recognition confirms the firm's leadership in the construction and program management area nationally and it is an honor to maintain this high distinction despite the current challenging economic times.

ENR performs annual surveys and ranks companies engaged in general contracting, specialty contracting, engineering, architecture, planning and studies. The rankings are based on annual revenue at home and abroad, and are further divided into specific market categories.

The Top 100 Construction Management for Fee list, published annually in June, ranks the 100 largest U.S. construction firms, both publicly and privately held, based on agency CM fees for project-related construction management projects. The Top 50 Program Management for Fee list, published annually in June, ranks the 40 largest U.S. construction firms, both publicly and privately held, based on agency PM fees for multi-project construction programs.
