Johann Dobak, Recognized by SAME DC Post for Outstanding Contributions to the Engineering Profession

DULLES, VA – Johann Dobak, P.E., LEED® AP, Vice President and Director of Civil Engineering, has been recognized by the Society of American Military Engineers (SAME) DC Post with an Award for his Outstanding Contributions to the Engineering Profession. This award is given to individuals who have demonstrated eminent and notable contributions in engineering, design or construction in the past five years. Based on this award Johann will be nominated nationally for SAME's Goethals Medal Award.

Johann is a graduate of Rensselaer Polytechnic in Rochester, NY with a B.S. degree in Civil Engineering. He is a registered Professional Engineer in VA, DC and MD. He has over 23 years experience in the field of engineering with special expertise in infrastructure systems, materials science and construction methods. His distinguished career includes management of engineering contracts for multiple government agencies at the federal, state and local levels; institutions, private developers and contractors. His greatest achievements as a professional came in service to DoD agencies managing engineering contracts for the Departments of the Navy (NAVFAC Washington), the Army (Baltimore District COE), the Air Force (Bolling and Andrews AFB), and the Marine Corps (Quantico MCB). These contracts involved both traditional Design Bid Build and Design/Build assignments of varying complexities and challenges and required both expedited service delivery as well as innovative approaches to deliver solutions.

Johann's leadership in engineering design was recognized in 2008 when he received one of 16 National ACEC Design Honor Awards for Engineering Excellence for his role as Alpha's Project Manager on the 911 Pentagon Memorial. In addition to his SAME membership, Johann serves in industry leadership positions including current service as the Vice President for ACEC MW's Board of Directors. He is hands-on in all he does and always enthusiastic to make a positive difference in everything with which he gets involved.
