ALPHA CORPORATION HAS DOUBLE SUCCESS WINS FOR BUREAU OF ENGRAVING AND PRINTING CONTRACT

DULLES, VA, May 29, 2014: Alpha Corporation, a professional engineering/construction management firm, is on two winning teams (E&G Consulting and Nandinee Phookan Architects) for on-call contracts to provide design services including electrical, architectural, structural and mechanical design services and more as required for the Bureau of Engraving and Printing (BEP). Work under these contracts will involve various construction projects at the BEP facility located at 14th and C Streets SW, Washington, DC. Typical projects may include design of building alterations, repairs, renovations, and improvements to historical and industrial facilities to accommodate printing and related printing processes. Alpha Corporation's role for both teams will include civil engineering. Each team has been awarded a one-year base contract with four additional one-year options.

Alpha Corporation, a full-service woman-owned firm, provides civil/structural engineering, program/ construction management, project controls, and technology services for various building types and heavy infrastructure projects. Assignments have encompassed providing these services for a broad spectrum of clients, including all levels of government agencies, public and private enterprises/partnerships, Fortune 500/Global 1000 companies, institutions of learning, commercial developers, energy companies, contractors, architects, and more. Overall, the firm's project portfolio exceeds \$50B in program constructed value for the past 35 years. Alpha Corporation's vision is to be recognized by clients for responsive, innovative and quality services in the building and infrastructure sectors, and to be the employer of choice for professionals seeking stimulating and rewarding careers. Alpha Corporation's mission is to provide innovative and sustainable solutions for the lifecycle of building and infrastructure projects through the integration of best-practice engineering, program/construction management, project controls, and technology.
