ALPHA CORPORATION TEAM WITH DEWBERRY CONSULTANTS WINS MARYLAND STATE HIGHWAY ADMINISTRATION CONTRACT

BALTIMORE, MD, August 6, 2015: Alpha Corporation, a professional engineering/construction management firm, has successfully teamed with Dewberry Consultants, LCC to win a contract with Maryland State Highway Administration (MDSHA). The team is formally named as Dewberry Consultants, LCC/Alpha Construction and Engineering Corporation. Alpha Corporation is the DBA for Alpha Construction and Engineering Corporation.

The Dewberry Consultants, LLC/Alpha Corporation team is one of eight awardees of an open-end contract with MDSHA. It ranked among the top three teams after final ratings were tabulated. This contract has a six-year term and its scope of work includes engineering design, support, and construction management services throughout Maryland. MDSHA is a division of the Maryland Department of Transportation. MDSHA is responsible for maintaining Maryland's numbered highways. This includes tasks such as bridge maintenance, snow removal, maintenance of the freeway/expressway system, and other services.

Alpha Corporation, a full-service woman-owned firm, provides civil/structural engineering, program/ construction management, project controls, and technology services for various building types and heavy infrastructure projects. Assignments have encompassed providing these services for a broad spectrum of clients, including all levels of government agencies, public and private enterprises/partnerships, Fortune 500/Global 1000 companies, institutions of learning, commercial developers, energy companies, contractors, architects, and more. Overall, the firm's project portfolio exceeds \$50B in program constructed value for the past 35 years. Alpha Corporation's vision is to be recognized by clients for responsive, innovative and quality services in the building and infrastructure sectors, and to be the employer of choice for professionals seeking stimulating and rewarding careers. Alpha Corporation's mission is to provide innovative and sustainable solutions for the lifecycle of building and infrastructure projects through the integration of best-practice engineering, program/construction management, project controls, and technology.
